The BIBLIO Massive Open Online Course (MOOC) for Library professionals

Eleni Georgakakou I Project Manager I Hellenic Open University (HOU)
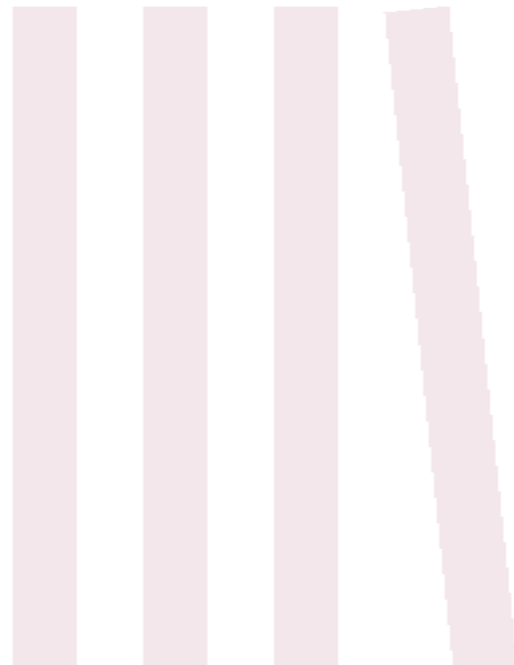

(georgakakou@daissy.eap.gr)

Presentation Overview

➢ Introduction - Project Learning path

➢ Aims and Objectives of the BIBLIO MOOC

➢ Technical specifications

➢ BIBLIO MOOC target group

➢ MOOC key information

➢ What will the learners achieve?

➢ Conclusions

Introduction - Project Learning path

➢ The MOOC is part of the WP4 "Design and delivery of MOOC"

➢ It follows the design of the VET curricula and the development of the digital content (WP3)

➢ Those who successfully complete this first training stage will be eligible to participate to the second (blended) and third (work-based) learning stages, which will be realized in WP5

Co-funded by the
Erasmus+ Programme
of the European Union

Aims and Objectives of the BIBLIO MOOC

➢ Produce and maintain a user-friendly and learning-oriented environment for delivering the MOOC – also self sustained.

➢ Deliver a modern MOOC to support the professional development of Library professionals on the particular competences, ensuring its capability to attract and serve effectively and efficiently Library professionals.

➢ Ensure that all relevant stakeholders (tutors, learners) are fully engaged and informed to maximize the impact of their participation in the pilots.

➢ Ensure data collection and assessment tools are in place to effectively monitor progress, make corrections and capture meaningful feedback for the evaluation of the MOOC.

Technical specifications - What did we need from the Learning Management System (LMS) of the BIBLIO MOOC?

- ✓ Asynchronous Learning
    - Learning can occur in different times and spaces particular to each learner
    - Instructor sets up a learning path
    - Learners engage with the learning material at their own pace
- ✓ Teaching tools
    - Lessons (modules)
    - Quizzes
- ✓ Collaboration tools
    - Forums, chats

Co-funded by the
Erasmus+ Programme
of the European Union

BIBLIO MOOC is based on "Moodle" LMS

DAISSy Research Group of the HOU has longtime experience in MOOC development

- ✓ Hosted in a dedicated Moodle server
- ✓ Ease of deployment, customization
- ✓ Offering responsive design (mobile friendly)
- ✓ The most known open source LMS (compatible also with Android, iOS),
- ✓ Serving a large community of learners

Dedicated Moodle server of DAISSy -

BIBLIO MOOC target group

❖ The MOOC will be made available to all interested Library professionals around the world.

❖ The BIBLIO consortium will give a priority to enroll 500 professionals from the BIBLIO European partner countries (Italy, Belgium, Bulgaria, Latvia, Greece).

❖ Any working experience in the sector will be helpful but is not compulsory.

MOOC key information

➢ The MOOC will start in September 2021.

➢ The duration of the MOOC is ❽ weeks.

➢ The learners need to dedicate approximately ❿ hours of self-study per week to complete it (80 hours in total).

➢ The course is offered in **English**.

➢ It consists of **training modules structured in: Introductory videos, learning material: OERs and material developed by the partners, online quiz**.

➢ Digital **training material** will be **available online** and the learners will be able to join a **community of peers** by participating in open discussions and active interaction through a **forum**.

What will the learners achieve? (1)

*Learners will be able to know more and build up their **digital** as well as their **entrepreneurial** and **transversal** **competences**, that are considered to be **fundamental for Library professionals in the digital era***

What will the learners achieve? (2)

Learners who complete the MOOC will develop their skills on themes such as:

- Online and offline communication
- Communication and interaction with library users
- Creating digital content
- Exploring technological changes
- Upskilling in information, data, and media literacy
- Community assessment and facilitation

The course is delivered **free of charge!**

Upon completion of the online course and
succeeding in at least the 70% of lessons attended and of
graded activities - online quizzes,
learners will earn the **Certificate of Completion**

The MOOC is part of the modular training programme for the development of the competences included in the emerging job profiles in the Library world.

The MOOC will be followed by the BIBLIO blended training course and the work-based learning activities
