# Center for Trustworthy Artificial Intelligence

## – CTAI

The CTAI's key objectives

### 1. Information

The center delivers knowledge, educates and informs. Understanding is essential for creating trust.

### 2. Research

Scientific monitoring of developments related to AI to avoid negative effects of AI.

### 3. Evaluation

The CTAI develops instruments for the assessment and certification of AI.

### 4. Certification

Creation of concepts to check whether AI systems meet the criteria of trustworthiness.

### 5. Network

We act as network designers. We discuss solutions to questions and challenges of AI.

**zvki.de**

Supported by the German Federal Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection

# Digital Collective Memory (DCM)

**memory-collective.org**  
supported by EVZ Foundation

## DCM key objectives

- 1. Creates a safe and central place** where people exchange ideas and information about digital tools for historical-civic education
- 2. Promotes** the use of digital formats in historical and cultural educational settings
- 3. Creates a network** where people help each other in their projects and plans
- 4. Creates new insights, ideas or points for discussion** and “go public” by taking results and issues from the platform to a broader audience

# iRights.Lab Academy

- Promotion of digital competences for beginners and experts
- Training courses:
  - Discrimination and algorithms
  - Public in digital change
  - Data Governance
  - Copyright online
  - Innovative management and organization
  - Professional usage of social media
