OUR CONTRIBUTION TO EU POLICIES

- Promoting the implementation of the **Digital Competence Framework**
- Nurturing and managing the **DigComp Community of Practice** and the **Certification Community of Practice**
- **Participation** in European Union expert and working groups
- **Leading conversations** through policy events, papers, recommendations and consultations

BE OUR MEMBER

To diversify and expand our membership we are inviting organisations:

- Representing different sectors (e.g. academia, government, industry, VET, third sector, etc.)
- Providing digital skills training and education from basic to advanced levels
- Operating in specific sectors where digital skills are needed and/or related to other skills
- Acting in geographical areas not currently covered or underrepresented within our network

We are open to establish mutual membership with EU associations in relevant sectors

ALL DIGITAL

ENHANCING DIGITAL SKILLS ACROSS EUROPE

BECOME A **MEMBER**

Shaping digital transformation with digital education

ALL DIGITAL is an association working to enhance digital skills across Europe. Its members provide training and support to **2.5 million people every year.**

The **main strength** of our network is the capacity to reach out at the grassroots level through thousands of Digital Competence Centres.

Digital Competence Centres are physical or online spaces where people get access to technology and acquire digital competences.

We enhance **digital skills** and **competences** of all people making them aware and capable to exploit the opportunities of digital transformation.

OUR VISION

Our vision is that everyone can benefit from digital transformation.

OUR MISSION

We support our members in equipping all people with digital skills, with confidence, and with a mindset that allows them to understand how digital transformation can contribute to a greener, more sustainable, inclusive, and cohesive growth of the society.

As well we work to let people understand how digital competences can enhance their personal and professional development.
